Education

University of St Andrews

Sep 2020 – Jun 2024

BSc (Honours) Financial Economics and Mathematics, Upper Second Class (2:1)

St Andrews, UK

- **Dissertation (Mathematics):** *Modeling the Divide* — a 5,000-agent simulation of how a population polarizes politically, now a live interactive app [live app]
- **Relevant coursework:** Econometrics, Time Series Analysis, Bayesian Statistics, Statistical Inference, Quantitative Risk Management, Asset Pricing, Game Theory, Multivariate Calculus

CFA Institute

CFA Level I — Passed (**Top 5% globally**)

Experience

Orbis Investments

Sep 2024 – Present

Quantitative Researcher

London, UK

- Designed and own systematic stock-selection signals for global financials from fundamental line-items; backtests at **~10% annual outperformance** and used in production for market-neutral portfolio construction (~\$1bn AUM)
- Built a novel time-series factor model for a concentrated US equity portfolio explaining **~80% of return variance** (adj. R^2); used by the portfolio manager to diagnose bets and size hedges
- Built the team's first AI-exposure factor model from earnings-call transcripts (LLM scoring with Claude/GPT) — flagged a de-rate that helped the PM sidestep a **~2.5% drawdown**; also deliver qualitative reads on brand moat and customer reception from Trustpilot and Revelio review data
- *Prior summer internship (2023):* researched alternative stock-beta estimators (Bayesian, robust, time-decayed) over 40 years of US equity data; built an interpretable XGBoost model of PM behavioural biases to flag losing trades (SHAP)

Risidio (Web3 startup)

May 2022 – Jul 2022

Finance & Investments Intern

London, UK

- Built NFT pricing models for IndigeNFT and set up the company's data-analytics function — on-chain analysis and strategy backtesting
- Built the investor deck for PROM, a decentralized film-financing platform, working with Hollywood directors Lucas Foster and Eric Blakeney

University of St Andrews

Sep 2021 – May 2022

Undergraduate Research Assistant

St Andrews, UK

- Built a Python logistic model of the St Andrews housing market (equilibrium rent and demand; `scipy.optimize` calibration) and a labour search-and-match model of wage rigidity

St Andrews AI Safety (STAISH)

2024

Co-founder & Program Director

St Andrews, UK

- Co-founded the university's first AI safety fellowship — a 6-week program (25 fellows) on ML fundamentals, AGI risk, alignment, and governance; curated 30+ readings and facilitated weekly discussions

St Andrews Effective Altruism Society

Sep 2022 – Jun 2024

Treasurer & Tutor

St Andrews, UK

- Secured a **£12,000 grant** and ran cost-benefit fund allocation; led weekly workshops (forecasting, argument framing, charity evaluation), growing enrolment 50% through talks and word of mouth

Extracurricular & Community

Sports: represented the state of Haryana (India) and the Sakha Republic (Russia) in basketball and football (U18) · **first-team** basketball for the University of St Andrews (BUCS)

Social impact: founded and ran an inter-school business & economics competition across India · coached underprivileged students for a charity mini-marathon

Skills

Technical: Python [Pandas, NumPy, SciPy, scikit-learn, XGBoost, SHAP, cvxpy, LLM APIs], R [tidyverse, ggplot2, fixest, time-series], **SQL** (Snowflake), **LaTeX**

Languages: Russian, Hindi
